

Quick Reference Sound Chart

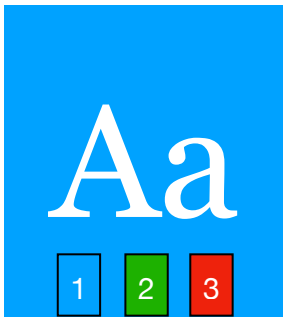

For Storybook Reading
Books 1-5

Remembering all of the sounds a letter or letter team can make is a difficult part of learning true phonics.

Yet, it is also foundational and necessary.

Here is a quick reference guide to learning all of the sounds a letter or letter team can make.

Storybooks 1 and 2
teach the 26 letters of the alphabet.
For quicker reference, I have arranged them
alphabetically rather than by how they
appear in the first two storybooks.
